

# SPS/QA-Sliding Panel with Quad Arm

The Sliding Panel System with Quad Arm adds further functionality and flexibility to a standard Sliding Panel System. Allowing the screen to move forward from the recess and rotate either direction up to 45 degrees this mechanism creates a solution that solves the most complicated of design problems with simplicity and style. A distinctively brilliant design, this one of a kind mechanism offers the ultimate in look, functionality and 'wow' factor.

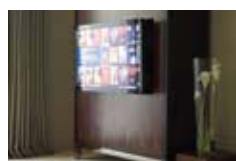

## Design Highlights
